LECTERN-S - MOTORIZED HEIGHT ADJUSTABLE - BARRIER-FREE

MOBILE, BARRIER-FREE LECTERN-S

PRODUCT

The barrier-free lectern-S is characterized by its stepless, electric height adjustment as well as its favorable price.

Due to the shape of the base, the mobile lectern is barrier-free.

The mobile lectern-S has 4 easy-running castors, 2 of which are lockable.

Due to the stepless height adjustment of approx. 50 cm, the lectern can be adapted to the height of each speaker. For this purpose, the up and down switch underneath the lectern top can be easily used. The lectern top is inclined approx. 8° to the speaker.

Due to the color design options of the front panel, the base and a selection of different decors for the lectern top, the lectern can be integrated into any room concept. The column is available in anodized aluminum or, on request, in black. Side shelves are optionally available.

Accessories

Accessories lectern - "LED gooseneck lamp".

Accessories lectern - "LED picture light".

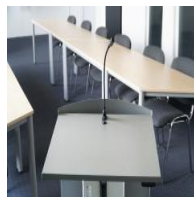

Accessories tray for mounting on the column - "Lectern-S".

Accessories - "3-way power strip, 5 m cable detachable".

Lectern-S - Accessories - Special paintwork front panel Lectern-S

Accessories lectern - "Cutout for gooseneck microphone".
