MOTORIZED DISPLAY MOUNT FOR HOLDING A DISPLAY UP TO 98" - "MOW-XL".

MOTORIZED HEIGHT-ADJUSTABLE WALL MOUNT, 130 KG LOAD CAPACITY, FOR WALL MOUNTING

PRODUCT

Our MOW series, motorized wall mount, is one of the most popular display mounts due to its thoughtful design and customizable look. The complete series is barrier-free.

To fit any of your room sizes, the MOW is available with slim column, with wide column and even for mounting above a lowboard. They are the ideal mount to safely install large and very heavy displays.

We have expanded our MOW series with the cost-effective MOW-S 130 B grid. This is ideal for greeting customers in reception and entrance halls or for employee information.

To guarantee you a flawless look, the complex system management for all three variants takes place inside the column. Outside, the cable management is taken over in the cable drag, so that no cables can disturb you.

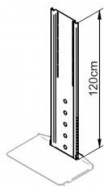

With the MOW series, displays up to 120 kg or 130 kg can be motorized in height with an up and down switch directly below the display.

The MOW series convinces with its easy handling and its modern, elegant design, making it the perfect support for your next meeting.
