DISPLAY STAND WITH MOTORIZED HEIGHT ADJUSTMENT SUITABLE FOR THE MICROSOFT SURFACE HUB 2 85" - "VST-MS"
AND DISPLAYS UP TO 110"

PRODUCT

The mobile display mount was specially developed for the 85" Microsoft Surface Hub and displays up to 110".

As a visual highlight, the columns run flush to the right and left of the display. The VST-MS is characterized by its electrical height adjustment of 60 cm.

The well thought-out design makes it possible to access the internal technology through the removable rear panel and store communication and collaboration equipment there. The system's own cable management is located behind the column. The removable rear panel conceals an integrated shelf for an additional mini PC, for example.

Accessories

Accessories - "VST-MS Side tray, foldable".

Transport handles for mobile display stands
