PROJECTION SCREEN WITH MOTOR - "CONGRESS 22

W/H: 350X350 CM, WITH MOTOR

PRODUCT

The Congress 22 is an extremely high-quality projection screen manufactured in Germany, which is ideal for professional use in the field of congresses and events. There is a revision possibility of the entire projection screen without disassembly.

The standard color of the aluminum case (W 22 x H 22 cm) is RAL 9016 Traffic White. Other colors are optionally available according to RAL Classic, please contact us! You can get the projection screens Congress 22 in different formats and designs

Mounting grooves on all sides of the projection screen's housing allow you flexible mounting options; perfectly adaptable to the respective conditions on site. The scope of delivery of the projection screens includes mounting brackets for ceiling mounting. Readjustment possibility of the housing horizontally.

Important note regarding DIN 56950-4 - All projection screens over 5 meters are equipped with a safety catch and a testable safety limit switch as standard. The built-in switch meets the requirements demanded in stage technology. Thus, all necessary criteria for the tendering and testing of mechanical equipment in operating facilities are already fulfilled in our standard design.
