MOW-S FLEX
DISPLAY STAND WITH BASE PLATE AND MOTORIZED HEIGHT ADJUSTMENT TO ACCOMMODATE DISPLAYS UP TO 98".

PRODUCT

The MOW-S flex complements our MOW series with two free-standing display stands. The high-quality and well thought-out design makes it easy to mount the display and media technology. The MOW-S flex is available as a motorized height-adjustable version with a 50 cm stroke or in a version where the display can be hung in 6 grid points.
available.

Media technology furnishing is also made easier by the color-customizable design. This is because the MOW-S flex not only focuses on functionality, but also on visual presence.

Thanks to the mobile V-base and the stable base plate, the MOW-S flex display stands are barrier-free.
